2020 Yukon River Salmon Fall Fishery Announcement #25

Subdistricts 5-A, 5-B, and 5-C Subsistence Fishing

Districts Affected: Upper Yukon Area

This year's fall chum salmon run fell below the 300,000 fish threshold needed to allow subsistence fishing. In accordance with the Yukon River Fall Chum Salmon Management Plan, subsistence fishing for fall chum salmon has been closed for most of the season. As the end of the 2020 fall chum salmon run is essentially complete in Subdistricts 5-A, 5-B, and 5-C, subsistence fishing restrictions are being relaxed to provide fishing opportunity for coho salmon and other fish species.

Subsistence Management Actions

Subdistrict 5-A (Tanana; **south bank only** and begins at a point opposite the westernmost edge of Illinois Creek upstream along the south bank of the river to the easternmost edge of the Tanana River mouth and includes the following islands: Second, Corbusier, Sixmile, Deet'laa', Swanson, Blind, Basco, Sword, Leonard, Still, Tanana, and Mission.):

Subsistence salmon fishing is closed. Fishermen may use 4 inch or less gillnet gear to target non-salmon species. Subsistence fishermen may also use selective gear that includes live-release (manned) fish wheels and dip nets to target salmon other than fall chum salmon and non-salmon fish species. Fall chum salmon must be released alive immediately from the selective gear and bypass any livebox on a fish wheel.

Effective 12:01 a.m. Wednesday, September 23, subsistence salmon fishing will open for 24 hours per day, seven days per week with 7.5 inch or smaller mesh gillnets. Fishermen may also use other types of salmon gear such as dip nets and fish wheels. All fish caught may be retained.

Subdistrict 5-B (Tanana, Rapids):

Subsistence salmon fishing is closed. Fishermen may use 4 inch or less gillnet gear to target non-salmon species.

Effective 12:01 a.m. Wednesday, September 23, subsistence salmon fishing will open for 24 hours per day, seven days per week with 7.5 inch or smaller mesh gillnets. Fishermen may also use other types of salmon gear such as dip nets and fish wheels. All fish caught may be retained.

Subdistrict 5-C (Rampart, Yukon Bridge Area):

Subsistence salmon fishing is closed. Fishermen may use 4 inch or less gillnet gear to target non-salmon species.

Effective 12:01 a.m. Thursday, September 24, subsistence salmon fishing will open for 24 hours per day, seven days per week with 7.5 inch or smaller mesh gillnets. Fishermen may also use other types of salmon gear such as dip nets and fish wheels. All fish caught may be retained.

COVID-19

Under Alaska’s Health Mandates 10, 17, and 18, commercial and subsistence fishing is essential and is part of Alaska’s Essential Services and Critical Infrastructure. Fishermen should ensure that all travel and other activities follow protocols in Alaska COVID-19 Health Mandates. COVID-19 Health Mandates may be found here: <https://gov.alaska.gov/home/covid19-healthmandates/>.

This is an announcement by the ADF&G in cooperation with the U.S. Fish and Wildlife Service. To reach the U.S. Fish and Wildlife Service in Fairbanks call 456-0406.
